

Osбето Industrial Services Ltd.

Our Company's Profile in Brief | All rights reserved.

Osbotto

... Excellence in every experience

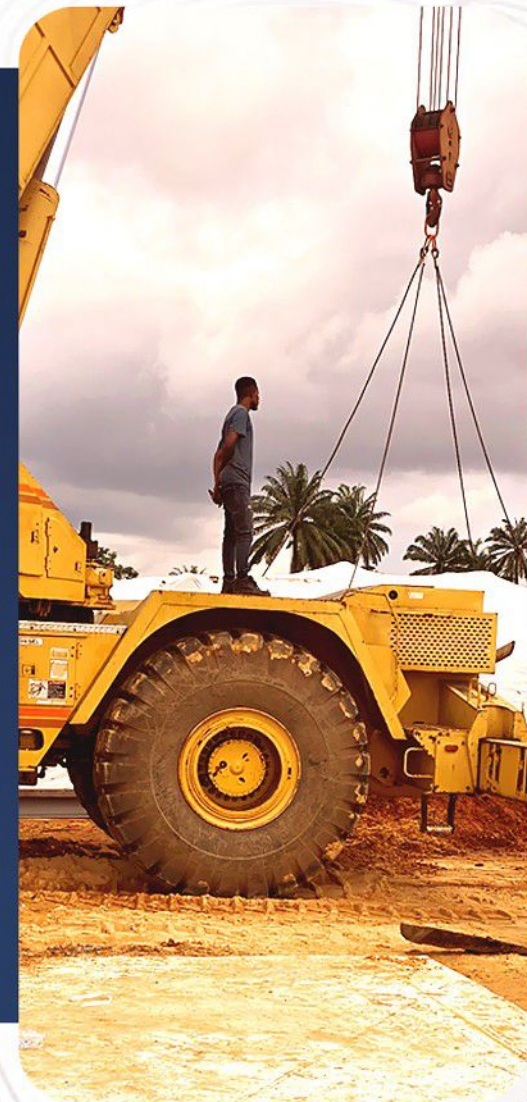

Osбето Industrial Services Ltd. is a premier multi-disciplinary engineering and geospatial consultancy firm. Originally established in 2012 as Osбето Industrial Services, the company underwent strategic expansion and was formally incorporated in 2019.

Under the leadership of Adinkwu, Felix Onyebuchi (M.Sc., MNIS), we have evolved into a powerhouse for industrial solutions.

We specialize in bridging the gap between high-precision surveying and heavy-duty civil engineering, serving the oil and gas sector, government agencies, and private developers across Nigeria and the wider African continent.

Our strength emanates from our distinct culture, strong and close relationships with our clients, employees' competence and loyalty, entrepreneurial and flexible management, capability, dynamism, focus on quality and safety, as well as commercial acumen.

Our company's head office is located at Kwale, Delta state, Nigeria, with our branch office situated at Warri, Delta state.

Core Values

We are guided by the P.I.T.E rule:

- Precision: Accuracy is our baseline; we measure twice and build once.
- Integrity: Transparent operations and adherence to NIS professional ethics.
- Technology: Leveraging GIS, Remote Sensing, and modern fabrication techniques.
- Excellence: Delivering results that exceed industry benchmarks.

Vision

To be the foremost African partner in integrated engineering and marine services, recognized globally for precision, innovation, and sustainable development.

Mission

To provide world-class industrial services through the integration of advanced geospatial technology and robust engineering practices, ensuring structural integrity and client satisfaction in every project.

Osбето Industrial Services Ltd. is a private liability company, duly registered in the year 2019, with the Corporate Affairs Commission (CAC), under the Companies and Allied Matters Act (1990), with RC NO: 1611313. Her nature of business is bordered on engineering services, surveying services, construction services, real estate development, e.t.c.

Further, we are duly registered with all industry relevant authorities/bodies as copies of our operational licenses and registration certificates can be provided where required.

We are fully compliant to the laws/legal provisions that governs business practises, operational practises in our various lines of work and contract executions, including labour laws that ensure the welfare of our employees, as based on our agreed terms of contract/service(s).

1 To deliver zero-defect engineering and construction projects.

2 To expand our footprint in offshore marine services and dredging across West Africa.

3 To provide data-driven geotechnical insights that mitigate construction risks.

4 To maintain a 100% Lost Time Injury (LTI) free record across all sites.

Organization, Standards, and Ethics

We operate a lean, high-efficiency organizational structure that ensures direct accountability. Our business ethics are aligned with the Nigerian Institution of Surveyors (NIS) and international ISO standards. We strictly prohibit bribery, foster fair competition, and ensure all professional certifications are up-to-date.

Policies/regulatory measures guiding our practices as a company

Health, Safety, Security, and Environment (HSSE/HSE)

At Osбето, *safety is not a policy; it is our culture.*

As a people, we are concerned about not only ourselves, our workers, but also care about those who may be impacted directly or indirectly, by our activities, as well as the environment.

Safety	Mandatory PPE, daily "Toolbox Talks," and comprehensive risk assessments.
Health	Regular medical check-ups for field staff and onsite first-aid capabilities.
Security	Journey management protocols and site-specific security personnel for high-risk areas.
Environment	Strict adherence to Environmental Impact Assessments (EIA) and waste management protocols to minimize our ecological footprint.

■ Project Management

We utilize the PMBOK (Project Management Body of Knowledge) framework. Every project is assigned a dedicated Project Manager who oversees the Five Stages: Initiation, Planning, Execution, Monitoring, and Closing.

■ Quality Management System (QMS)

Our QMS ensures that every survey coordinate and every cubic meter of concrete meets specified tolerances. We perform rigorous internal audits and material testing (e.g., concrete crush tests and soil compaction tests) before proceeding to project milestones.

■ Incentive Scheme

To maintain high morale and safety, we operate a "Safety-First Incentive Program," rewarding teams that achieve milestone targets without incidents or rework requirements.

Project Delivery

Our delivery model is centered on "On-Time, On-Budget, and On-Spec." We utilize real-time reporting tools and GIS tracking to give clients a transparent view of project progress, whether they are in Nigeria or abroad.

Since every fabulous project is a product of a thinking and well tailored execution process, we at Osбето Industrial Services Ltd., have mastered the onerous art of employing cutting edge expert thinking and brainstorming prowess, regarding all given tasks.

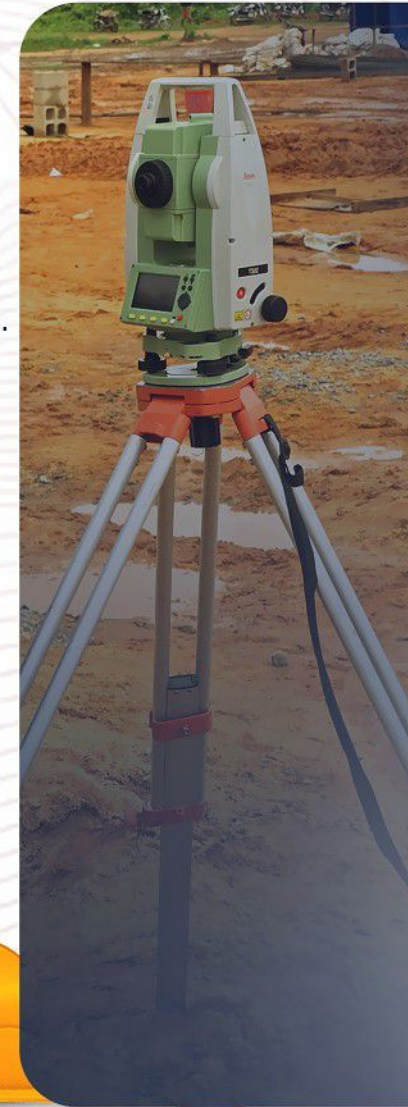

Our thought processes and executory methodology are clearly designed using up to date delivery oriented softwares and gadgets, in order to better establish and communicate our ideas, from start to finish, where necessary, with other members of the team, our clients and partners.

To us, there is no excellence and precision, without a thought design/process.

Osбето Industrial Services Ltd. offers a comprehensive suite of technical solutions:

- ✓ **Surveying & Mapping:** Cadastral, Topographical, Hydrographic, and GIS-based Remote Sensing Surveys.
- ✓ **Geotechnical Engineering:** Soil investigations, borehole drilling, and thermal resistivity tests.
- ✓ **Civil Engineering & Construction:** Specialized in roads, drainage systems, Rig foundations, building constructions, and other civil related projects.
- ✓ **Compressor Foundations:** Expert precision engineering for heavy industrial vibration-prone machinery.
- ✓ **Location Preparation:** Site clearing, earthworks, and "Greenfield" industrial site development.
- ✓ **Dredging & Marine Services:** Onshore and offshore support, including canalization and sand winning.
- ✓ **Welding & Fabrication:** Structural steelwork and industrial piping systems.

Adinkwu Felix Onyebuchi (M.Sc., B.Sc., MNIS) Managing Director

Adinkwu, Felix Onyebuchi is a distinguished geospatial expert and infrastructure consultant with 9 years of post-qualification experience. As the **Managing Director** and **Chief Executive Officer** of Osбето Industrial Services Ltd., he bridges the critical gap between high-precision measurement science and large-scale civil engineering execution.

Felix's leadership is defined by a rare "full-stack" technical capability. While many specialize in either data or construction, Felix commands the entire project life cycle from the initial satellite imagery and soil analysis to the final structural handover. His approach ensures that every road, building, or industrial site is built on a foundation of mathematical certainty and geological stability.

Felix holds a **master's degree in GIS and Remote Sensing** and a background in **Surveying and Geoinformatics**. He brings **9 years** of specialized experience to the industrial sector. A member of the **Nigerian Institution of Surveyors (NIS)**, Felix is dedicated to integrating advanced spatial technologies with traditional surveying excellence to deliver world-class industrial solutions.

OSOGBUE MISHEL (M.Sc.) **Head of Finance (CFO)**

Osogbue Mishel holds a Higher National Diploma (HND) in Accounting, Post graduate diploma (PGD) in Business Administration and a Master of Science (M.Sc) Degree in Business Administration. With a solid foundation in financial management and business strategy, he has built a progressive career spanning company administration and financial leadership.

Having served as a **Company Administrator** and currently as **Head of Finance**, he brings strong expertise in financial planning, budgeting, internal controls, and organizational management. He is known for his integrity, analytical strength, and commitment to driving operational efficiency and sustainable growth within the organization.

ENEBELI BLESSING OLUCHI (B.A.)
Head of Administration (Admin.)

Enebeli Blessing Oluchi holds a Bachelor of Arts (B.A.) in English and brings strong communication, organizational, and administrative expertise to the organization.

Beginning her career as a Client Support Officer, she developed a solid foundation in customer relations and service excellence.

Now serving as the **Company's Administrator**, she oversees administrative operations, coordinates internal processes, and ensures smooth day-to-day management of the organization. She is recognized for her professionalism, attention to detail, and commitment to efficiency and client satisfaction.

Over the years, we have successfully carried out construction, engineering, surveying, and technical services for private individuals, corporate bodies, construction companies, and Oil and Gas companies, operating as a main, or sub contractor.

The following are details of some projects we have emarked on so far:

Client	Project Executed	Location	Year of execution
Phoenix Infrastructure Development Ltd.	Phoenix Gas Processing Plant project.	Kwale free trade zone, Kwale Delta State	2025 -2026
Phoenix Infrastructure Development Ltd.	Location preparation / site stabilization	Kwale free trade zone, Kwale Delta State	2025
Delta state economic zone / Xenergi Ltd	Perimeter, Topographical and as-built Survey of their 200 hectares land acquired	Kwale free trade zone, Kwale Delta State	2025
Xenergi Limited	Geotechnical soil investigation	Kwale free trade zone, Kwale Delta State	2025
Phoenix Infrastructure Development Ltd.	Geotechnical soil investigation	Kwale free trade zone, Kwale Delta State	2025

Client	Project Executed	Location	Year of execution
PSFV Farms (A. A. Holdings)	Topographical and as-built Survey of their 7 hectares land acquired for green house farms	Abbi, Delta State	2025
Axxela Limited	Pre strip topographical and perimeter survey	Umuseti, Kwale Delta State.	2024
Phoenix Infrastructure Development Ltd	Geotechnical soil investigation	Umuseti, Kwale Delta State.	2024
Westflux Integrated Services Ltd	Topographic and bathymetric Survey	Aboh, Ndokwa East Local Government Area, Delta State.	2024
Chorus Energy Ltd	Boundary acquisition and control establishment	Etua Oliogo, Delta State.	2023
Chorus Energy Ltd	Perimeter survey of part of Chorus Energy facility (Buffer)	Umuachi – Ogo, Delta State	2023

Client	Project Executed	Location	Year of execution
Xenergi limited	Construction of 1.4km road for Xenergi limited	Ebendo, Delta State	2023
Chorus Energy Ltd	construction of 625-meter road with one-sided drainage system (surveyor)	Umuachi – Ogo, Delta State	2023
Surveyors' council of Nigeria (Surcon)	Street Guide Mapping of Part of "Warri South Local Government Area	Warri South Local Government Area, Delta State	2022
Ministry of works	Construction of 455m road with associated drainage	Kwale, Delta State	2022
Midwestern Oil and Gas	Construction of 500m road (surveyor)	Ogbeani community, Kwale, Delta State	2022
Midwestern Oil and Gas	Construction of 1km road with associated drainage	Kwale, Delta State	2021

Client	Project Executed	Location	Year of execution
Midwestern Oil and Gas	Construction of 500m discharge drainage system	Kwale, Delta State	2021
Xenergi limited	Mapping and topographical survey of Kwale gas gathering (KGG)	Emu Ebendo, Delta State	2020
Seplat	Construction / location preparation of Oben KHIS (project lead)	Oben, Edo State	2020
Midwestern Oil and Gas	Construction of 2 x 6 classrooms	Umusam, Delta State	2020
God's kingdom Society	Construction of 10,000 capacity auditorium	Warri, Delta State	2020
Seplat	6km road maintenance (surveyor)	Elume, Delta State	2019

Client	Project Executed	Location	Year of execution
Seplat	Ovhor rig route entry dredging and well head slot and access including capital dredging(surveyor / project lead)	Ovhor, Delta State	2019
NPDC	Odidi field re-entry dredging activities (well and access)	Odidi, Delta State	2019
Seplat	Iguelaba / Oben road construction with associated drainages	Oben / Iguelaba, Edo State	2019

WHY CHOOSE OSBETO?

Choosing Us is a commitment to excellence at its finest, as it means you choosing:

- **Expert Leadership:** Led by an MD with an M.Sc. in GIS and Remote Sensing and MNIS certification.
- **Versatility:** We handle everything from the initial land survey to the final structural welding.
- **Global Reach:** Experience serving onshore/offshore clients within and outside Nigeria.
- **Proven Track Record:** Over a decade of operational excellence (since 2012).

Contact Us

We look forward to getting in touch with you today!

Kwale office: Along Kwale / Ozoro express road, by midwestern company Junction, Kwale, delta state, Nigeria.
